DETAILED ACTION

This Office Action is in response to amendments/arguments filed 8/31/2009. Currently, claims 2-6, 10-13, and 22-25 are pending in the instant application.

Allowable Subject Matter

Claims 2-6, 10-13, and 22-25 allowed over the prior art of record.

Election/Restrictions

Claims 2, 4, 10-12, and 22-25 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 3, 5-6 and 13, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 8/25/2006 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the

provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record does not fairly teach or suggest, alone or in combination, a tracheal or esophagus device comprising a flippable insert where the first end is 0.5 to 20% of the total length, the second end is 0.5 to 50% of the total length, the intermediate section is of a hardness between 50 SHORE A and 90 SHORE D, the first and second ends have hardnesses approximately 20 to 30% less than the selected hardness of the intermediate section, and the first end being bent at an angle of about 25 to 45 degrees in order to allow the tube to enter the esophagus when inserted in one direction and enter the trachea when inserted in the opposite direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Peterson et al. (US Patent 6,503,353), Castilo et al. (US Patent 5,171,232).
